## EXPERIENCE

**SOFTWARE DEVELOPER – SEP 2018 - PRESENT**  
**PINMI SOFTWARE SOLUTIONS – Belgaum, KA**

- As a software developer at PINMI, I am a member of a team that constructing both the customer-facing and administrative sites. I am responsible for both frontend and backend development.
- We used a collection of technologies for our underlying software's.
- There, my knowledge of HTML, CSS, PHP, jQuery, Ajax and JavaScript expanded, while I gained experience using some of the best modern front-end frameworks such as Bootstrap, MySQL databases and REST Api's.

## PROJECTS

### INVENTORY MANAGEMENT

Web software built with Bootstrap, Jquery, Ajax, PHP and Mysql DB

- Flexible inventory management.
- Simple accounting management.
- Faster access to reports.
- Billing invoices.

### BARCODE SCANNER

Web software built with Bootstrap, PHP and Mysql DB

- This software can be used to scan products using barcode and keep the information about this product.
- It can be used to keep count of stocks in billing software (e.g. Stock Management).

### GPS TRACKING TEMPLATE

Website template built with HTML, CSS and Bootstrap.
